

Year 3 Week 2 Summary

Please make sure you read this carefully.

Well done everyone for completing your first week of home learning! I've seen lots of great work emailed to me so far so keep it coming.

Don't forget to try and keep up your timetable, you have one in the front cover of your DL book to help you each day. Take breaks as you need them but try and complete a task before you do so you can ensure your best quality work.

You still have around 2 hours of work to complete a day. This includes Maths, English, VIPERS and then some choices of Science, Discovery and practical tasks.

Maths, English and VIPERS have been updated for this week (week 2). I have changed our maths topic and we will come back to fractions later. There are now some mathematical talk sections that help you complete your tasks and talk about your learning. The notes and guidance sections are more for your parents/the adult in your house to help you if you need help and so they can understand what you are learning also.

Remember the following:

Neat **joined** writing. Rule lines with a pencil. If you have a pen license, use pen for all topics except maths. If you don't have one, I will still be looking at your writing and will let you know if you earn it. Make sure you are still writing on the lines.

Don't forget to take pictures of your work and email them to me so I can mark it and give you some feedback. My email is

Pine@newvalleyprimary.com

You can do this! Keep up the amazing work!

Miss Weckmann
