

In maths this week, we are going to be solving equations and converting measures.

Lesson 1

Watch this short video - <https://vimeo.com/428002477> - which will go over solving two step equations.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-1-Solve-two-step-equations-2019.pdf>

You can still answer the questions in your book.

Lesson 2

Watch this short video - <https://vimeo.com/428002579> - which covers finding pairs of values.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-2-Find-pairs-of-values-2-2019-2.pdf>

You can still answer the questions in your book.

Lesson 3

Watch this short video - <https://vimeo.com/428002669> - which covers converting metric measures.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-3-Convert-metric-measures-2019.pdf>

You can still answer the questions in your book.

Lesson 4

Watch this short video - <https://vimeo.com/428002822> - which covers miles and kilometers.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-4-Miles-and-kilometres-2019-2.pdf>

You can still answer the questions in your book.
