

# Week 14 Y4 Discovery

## Science Fair

Here's one for the scientists amongst you.

Choose a science topic that interest you. Research it and present your findings and any experiments as if you were entering a science fair.

You could include a film of your experiment or a set of photos, or present it all on a powerpoint presentation.

**Get creative!  
Investigate  
and experiment.**

**Be a scientist!**

## Final Week- so what have we learned?

What have been your favourite topics? Draw or present a poster of your favourite learning.

**Art Competition! (continued from last week- entries by Wednesday please)**

Draw, use pencil, biro, felt tip, paint, collage, sewing, photography, pastels or any media or technique you like and base your entry on **The Great Outdoors.**

Find a world of taste....

## The great Y4 Bake- Off

Design and make the ultimate individual party food to show off at our virtual party this week!

You pick the theme- cake and confectionary, health and goodness, sweet or savoury....

If it tastes good, don't forget to share the recipe!
