

In maths this week, we are going to be looking at fractions, decimals and percentages.

### **Lesson 1**

Watch this short video - <https://vimeo.com/420690848> - which will go over solving two step equations.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-1-Fractions-to-percentages-2019.pdf>

You can still answer the questions in your book.

### **Lesson 2**

Watch this short video - <https://vimeo.com/420690973> - which covers finding pairs of values.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-2-Equivalent-FDP-2019.pdf>

You can still answer the questions in your book.

### **Lesson 3**

Watch this short video - <https://vimeo.com/420691109> - which covers converting metric measures.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-3-Order-FDP-2019.pdf>

You can still answer the questions in your book.

### **Lesson 4**

Watch this short video - <https://vimeo.com/420691195> - which covers miles and kilometers.

The questions for this lesson can be found here:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-4-Percentage-of-an-amount-2-2019.pdf>

You can still answer the questions in your book.
