1 ten and 1 one

Explain which one is the odd one out and why.

10 16 sixteen

1 ten and 6 ones

1 ten and 1 one

16

1 think the odd one out is, because...

thirteen is one ten and three ones

16 is not correct? Explain Peter gets twelve

I have made the number 16

No because you need to add one more block.

This is my best friend  
Zak. He is sunny and he likes  
copying me when I am drawing.  
He is kind but a bit mischievous.

I think the odd one out  
is 15 because  
this is 15 and  
the others are 16.

Least is my brother. He has brown hair and  
green eyes. He is a football player. He loves maths.  
His favourite color is green. We play together and  
have lots of fun.

This is my brother. My  
brother is called Mr. MUGER. He has  
black hair and black eyes  
and my brother is 1 year old.  
He don't go to nursery. We  
like to roll and have  
both times.  
We like to watch Baywatch.  
My brother is crazy, silly and  
funny.

I think the very going to be  
about graduated playing with his  
grandson on the island.

a) How many apples are there?

There is 1 ten and 5 ones.

There are 15 apples.

b) How many bees are there?

# Maths Challenge Sheet – Numbers to 20

For example

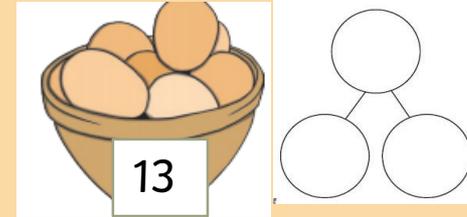

My whole is 14  
There is 1 ten and 4 ones.  
fourteen

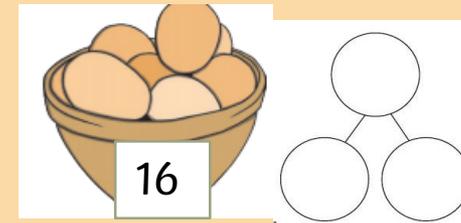

Remember the 1 ten = 10.  
So on your part-whole model  
you need to write 10.  
 $1 + 4$  does not = 14.  
 $10 + 4$  does = 14.

Look at the baskets of eggs. For each picture:

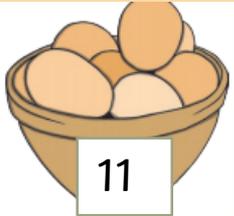

- Partition the number into tens and ones
- Complete a part-part whole
- Write the number in words

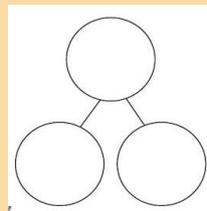

My whole is \_\_\_\_  
There is \_\_\_ ten and \_\_\_ ones.

# Maths Learning Journey- Place Value to 20

In class we normally have our maths journey on our working wall. Check out where we are and what learning is coming up!

We know this is 10 because the tens frame is full.

There are 7 ones.

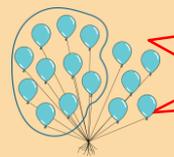

Each cube has the value of 1

This is called Base Ten. The stick has the value of 10.

10s	1s
1	5

This does not mean one. It means there is one group of ten.

**Partitioning a number into tens and ones.**

There is 1 ten and 5 ones.

Word problems:  
There were 15 birds in a tree. 1 flew away. How many are there now?

Numbers from 11-20

There is 1 ten and 4 ones.

Just because we can't count each individual pencil, we know there are 10 because it says it is a pack of 10.

Count one more and ones less

Counting forwards and backwards 0-20.

START

We are counting forwards...our numbers are getting greater.

We are counting backwards...our numbers are getting smaller.

Think about what comes before and after a number.

One more than 17 is 18.  
18 is one more than 17

One less than 17 is 16.  
16 is one less than 17.

Compare groups of objects

Compare numbers

Order numbers

Order groups of objects

# English

Tuesday's lesson:

Learning Objective: I can make inferences on the basis of what is being said and done.

My Grandad  
by Syd

Yesterday you described a special person in your life.

## Today's task:

Today you are going to imagine that you are Syd and write about his Grandad.

Think about what Syd would want to say. You could start with..

My Grandad is very special to me because...

What kind of adjectives could you use?

- kind
- caring
- interesting
- happy
- adventurous

Large empty rectangular box for writing the story.

Seven horizontal lines for writing the story.

## Grandad's Island

Prediction: What do you think the story is going to be about?

I can link what I have read to my own experiences.

This is my sister. She has brown hair and she is very kind.

I can make inferences based on the text.

My Grandad is courageous and enjoys exploring!

What adjectives can you use to describe Syd's Grandad?

# Vipers

## Monday's lesson:

Vipers is a lesson that focuses on different reading skills.

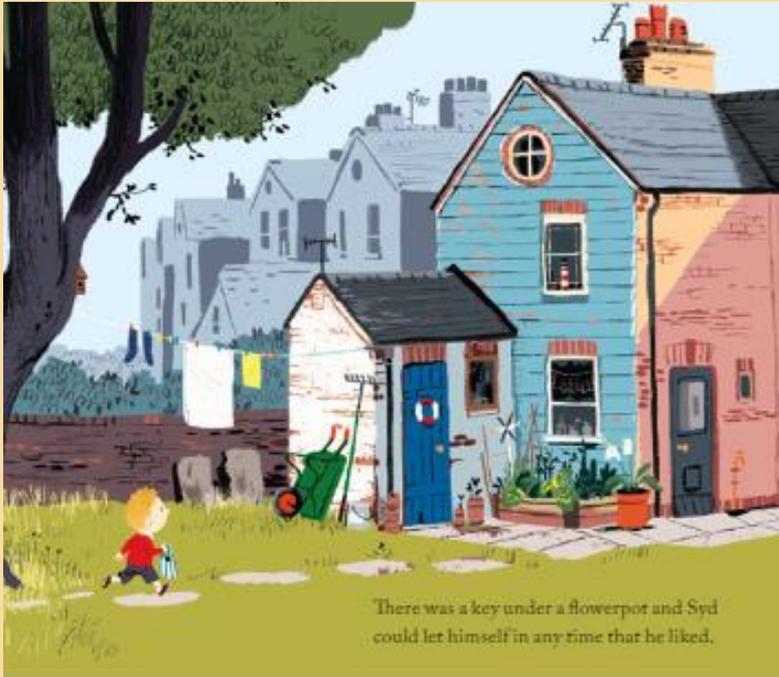

## Reading Vipers

**V**ocabulary  
**I**nfer  
**P**redict  
**E**xplain  
**R**etrieve  
**S**equence or Summarise

Discuss these questions with someone at home. Write your answers in full sentences.

There was a key under a flowerpot and Syd could let himself in any time that he liked.

Click on the picture to hear the book. Stop at the page above.

How would you describe Grandad's house? Replace the word in **bold** with a synonym (a word with the same meaning): Syd could let himself in any time that he **liked**.

Explain how the author/illustrator has made Grandad's house seem warm and inviting.

Where is Grandad's house?  
The key to Grandad's house is under a wheelbarrow. True or false?  
What can you see in Grandad's garden??

## Spelling - Tuesday
