

English

Today we are going to think about what we need to create a wanted poster. We are going to use everything we have been learning this week to think about what to include.

I have created my own poster and we will be going through this and discussing what I have included and how I can make it better.

Children will then write their own wanted poster and include: words with the prefix 'un', similes and adjectives.

Wider Curriculum

PSHE – create a poster about how to encourage people to live healthily.

<https://classroom.thenational.academy/lessons/life-is-all-about-balance-crwk6r?step=1&activity=video>

Handwriting – This week we are practising tall letters. We are going to practice writing the letter d.

Spellings - The prefix (added to the beginning of a word to change the meaning) **un** is added to words to make them mean the opposite. E.g. **uncertain** – not certain
unclear, unable, uncover, unbeaten, unaware

Maths

We are going to continue to look at division. We will be discussing more about the inverse of division and multiplication and how you can use both of these to help with questions.

There is a video for further support if needed: <https://www.bbc.co.uk/teach/class-clips-video/maths-ks1--ks2-the-relationship-between-multiplication-and-division/zdqb47h>

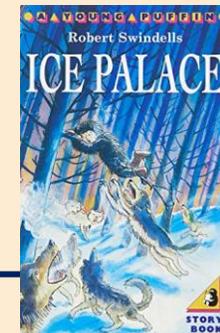

VIPERS

Read pages 24 - 29 of Ice Palace.

What does desperately mean? (v)

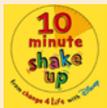

What does it mean 'the bear lunged at them'? (v)

How do you think Ivan felt when he heard the wind? (i)

WANTED!

Have you seen this evil man?

Name: Starjik

This is Starjik and he is wanted for kidnapping innocent children. This tall, horrible man is 63 years old and has committed awful crimes! He wears a dark, black cape and has a white, wiry beard. People know Starjik to be unkind and uncaring because he doesn't care about anyone but himself. This makes him a selfish individual.

You are likely to find Starjik in Antarctica because he likes the freezing cold and this is where we believe he takes his victims. He travels on a sled with his vicious wolves. They have eyes as yellow as the beaming sunshine and fangs as sharp as knives. His sled is as fast as the wind because he greases his wheels every night.

Be sure to keep away from this nasty criminal as he is unafraid of anyone and who knows what might happen if you bump into him.

*Draw your picture and then
underneath write:*

Have you seen this _____ man?

Name: Starjík

1st paragraph:

Why is he wanted?

What does he look like?

Why should you keep away?

In this paragraph you will use the prefix 'un' to describe Starjík

2nd paragraph:

Where might you find him?

What does he ride on?

Talk about the wolves

In this paragraph you will use similes to describe the wolves, starjík, the sled, how dark it is at night.

Finally:

Warn people to stay away and explain why.

How much will people be rewarded if they find him?

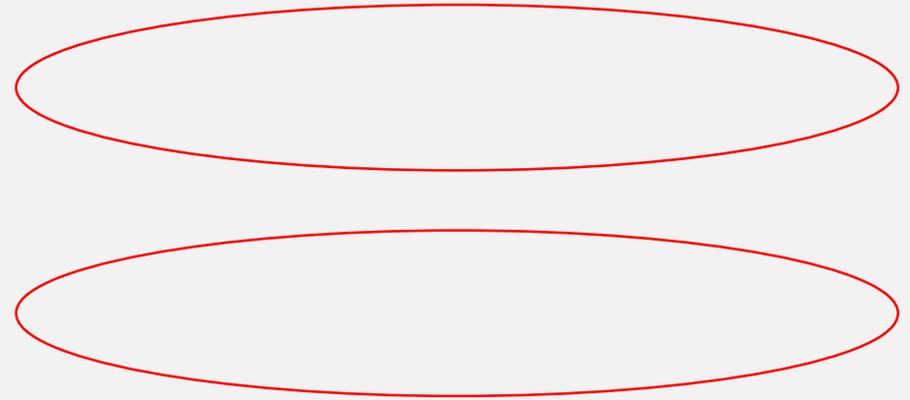

Maths

Key Words

division
divide
share
groups
equal
amount

This could be $2 \times 3 = 6$, $3 \times 2 = 6$

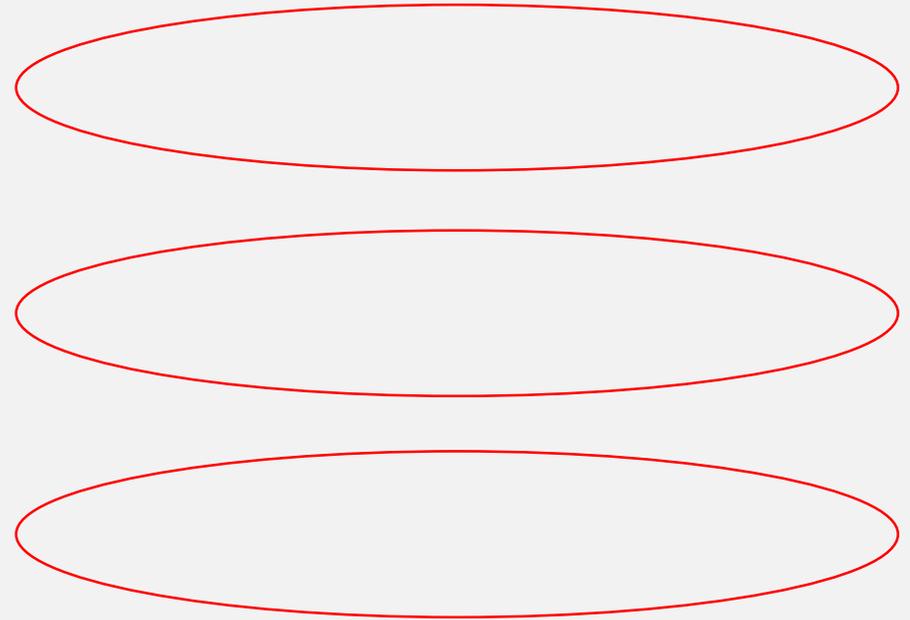

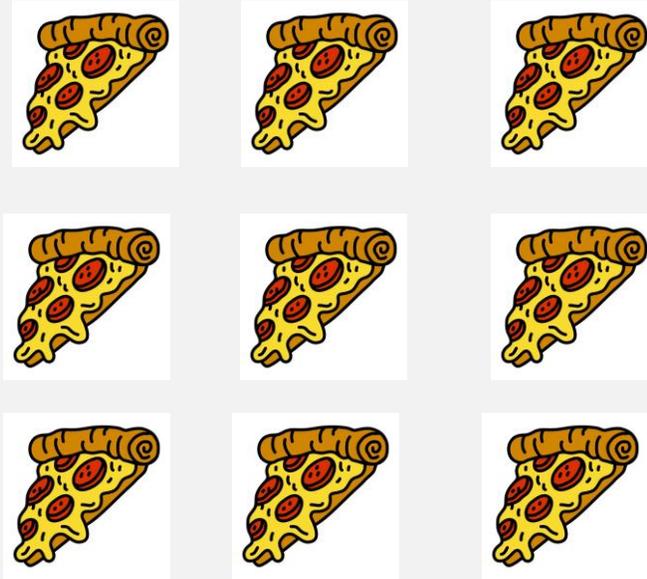

But it could also be $6 \div 3 = 2$

This is called 'inverse'

This could be $3 \times 3 = 9$

But it could also be $_ \div _ = _$

This is called 'inverse'

The number line shows 30 and they make jumps of 10.

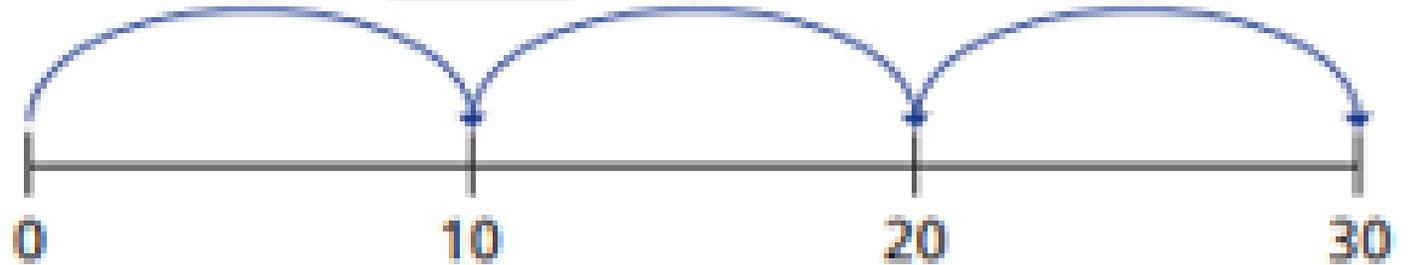

How many jumps of 10 make 30?

*This would be $30 \div 3 = 10$
or $30 \div 10 = 3$*

Complete the number sentences.

Use the number line to help you.

a) $30 \div 10 =$

30 is made of equal groups of

b) $30 \div 5 =$

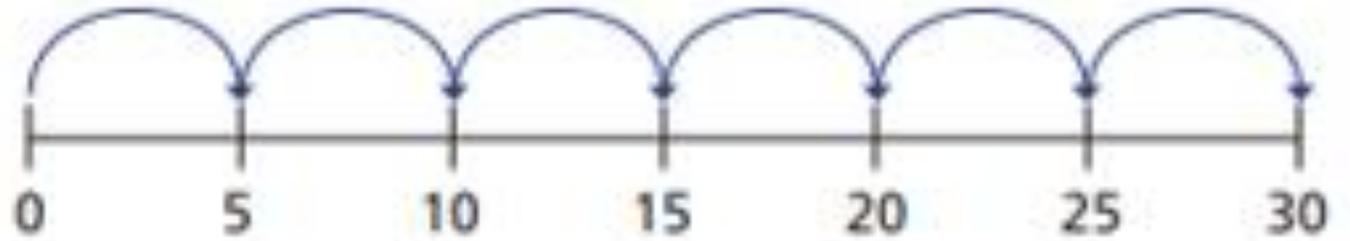

Now the number line is making jumps of 5.

Count how many jumps of 5 get to 30.

The first is the number of jumps and the second is the number you jump in.

_ jumps
_ groups of

_ ÷ _ = _

30 is made of equal groups of

c) Investigate other equal groups you could make with 30

Talk about it with a partner.

Resources

English

Write a short description (2 or 3 sentences) for Starjík and Ivan. Use similes and adjectives to allow the reader to picture the image without seeing it.

Starjík:

Starjík has a beard as white as snow.

His wolves are as vicious as a hungry tiger.

Ivan:

Ivan is as brave as a lion.

He is scruffy like a dog.

He was as hungry as a bear.

You can also describe what they look like. There is no clear description of this so think about what you think they would look like.

Make equal groups – grouping

- 1 Annie has 10 apples.

Annie has some plates.
She wants to put 2 apples on each plate.
Show how Annie groups the apples.

Complete the sentences.

There are apples.

There are apples on each plate.

There are plates.

- 2 Take 15 counters.

Put the counters into groups of 3
Complete the sentences.

There are 15 counters.

The counters are in groups of

There are groups.

- 3 Mo has 20 chairs.

- a) Circle groups of 5 chairs.

- b) How many groups did you circle?

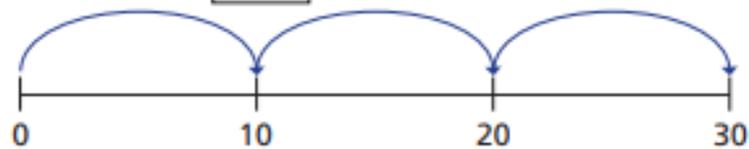

- c) Complete the number sentence.

$$\square \div \square = \square$$

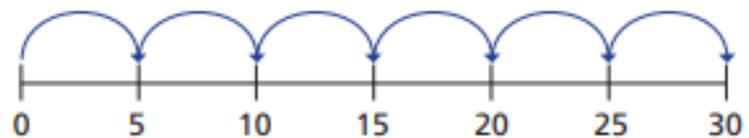

- 4 Complete the number sentences.
Use the number line to help you.

a) $30 \div 10 = \square$

30 is made of \square equal groups of \square

b) $30 \div 5 = \square$

30 is made of \square equal groups of \square

- c) Investigate other equal groups you could make with 30

Talk about it with a partner.

- 5 Eva is putting 24 pencils into pots.

She puts 2 pencils into each pot.
How many pots does Eva need?

$$\square \div \square = \square$$

Eva needs \square pots.

6

With 40 counters
you can only make equal
groups of 4 and 10

Is Ron correct? _____

Use counters to show how you know.

d

Handwriting

You do not need to print this sheet out. Children can write in their books - some children may need an adult to write the letter or word first and then they can continue.
