English

Today we are learning to: *Use high impact, well chosen vocabulary*

Have a look at 'Resource 1' (it's the same section as yesterday). Tomorrow, you will be writing a description of the story's setting – the small German town of Glockenheim – on the night the story starts. 'It began on a winter's evening'...

Activity

Think about words, phrases and sentences you could include to describe the wintery scene. Think about the senses...what can you see, hear, feel? Try and use high impact vocabulary and figurative language (metaphors, similes and personification).

You could create a mind map like this:

We'll discuss this lesson and come up with some ideas in our morning call!

Maths

This week we are studying 'Position and Direction'
Follow the links to the White Rose website to find today's lesson

Wider Curriculum

Science

Our focus this half term is:
Electricity

Click Me!

[Click this link](#) and work your way through the first lesson.

In this lesson, we will be learning all about static electricity. We will learn how static charges occur and what happens when they are discharged. We will also be exploring how to create our own static charges with a balloon! *If you have a balloon at home then you can use it for this lesson.* If you don't then don't worry, you will still be able to watch the demonstrations and complete the lesson.

Remember to take lots of exercise and brain breaks away from your screen during the day!

VIPERS

Read the beginning of Chapter 1 of Clockwork - 'Resource 1' (it's the same section as yesterday). Have a go at these VIPERS questions:

Vocabulary

1. What is an 'apprentice'?
2. What is a 'hearth'?

Retrieve (find evidence from the text)

1. Where does the story take place?
2. When does the story take place?
3. What is the name of the cat?
4. Who is Herr Ringelman?
5. Why was Karl, the apprentice, anxious?

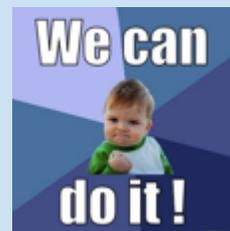

TT Rock Stars

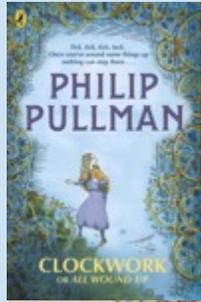

Try your first gig on [Times Table Rock Stars](#). It will test you on lots of tables and help select which ones you need to practise!

'Homework'

Have a go at the homework in 'Resource 2'

PART ONE

1

Once upon a time (when time ran by clockwork), a strange event took place in a little German town. Actually, it was a series of events, all fitting together like the parts of a clock, and although each person saw a different part, no-one saw the whole of it; but here it is, as well as I can tell it.

It began on a winter's evening, when the townsfolk were gathering in the White Horse Tavern. The snow was blowing down from the mountains, and the wind was making the bells shift restlessly in the church tower. The windows were steamed up, the stove was blazing brightly, Putzi the old black cat was snoozing

2

on the hearth; and the air was full of the rich smells of sausage and sauerkraut, of tobacco and beer. Gretl the little barmaid, the landlord's daughter, was hurrying to and fro with foaming mugs and steaming plates.

The door opened, and fat white flakes of snow swirled in, to faint away into water as they met the heat of the parlour. The incomers, Herr Ringelmann the clockmaker and his apprentice Karl, stamped their boots and shook the snow off their greatcoats.

'It's Herr Ringelmann!' said the Burgomaster. 'Well, old friend, come and drink some beer with me! And a mug for young what's his name, your apprentice.'

Karl the apprentice nodded his thanks and went to sit by himself in a corner. His expression was dark and gloomy.

'What's the matter with young thingamajig?' said the Burgomaster. 'He looks as if he's swallowed a thundercloud.'

'Oh, I shouldn't worry,' said the old clockmaker, sitting down at the table with his friends. 'He's anxious about tomorrow. His

3

apprenticeship is coming to an end, you see.'

'Ah, of course!' said the Burgomaster. It was the custom that when a clockmaker's apprentice finished his period of service, he made a new figure for the great clock of Glockenheim. 'So we're to have a new piece of clockwork in the tower! Well, I look forward to seeing it tomorrow.'

'I remember when my apprenticeship came to an end,' said Herr Ringelmann. 'I couldn't sleep for thinking about what would happen when my figure came out of the clock. Supposing I hadn't counted the cogs properly? Supposing the spring was too stiff? Supposing – oh, a thousand things go through your mind. It's a heavy responsibility.'

'Maybe so, but I've never seen the lad look so gloomy before,' said someone else. 'And he's not a cheerful fellow at the best of times.'

And it seemed to the other drinkers that Herr Ringelmann himself was a little down-hearted, but he raised his mug with the rest of them and changed the conversation to another topic.

'I hear young Fritz the novelist is going to read us his new story tonight,' he said.

'So I believe,' said the Burgomaster. 'I hope it's not as terrifying as the last one he read to us. D'you know, I woke three times that night and found my hair on end, just thinking about it!'

Synonyms

3

Underline the two words in each passage that are synonyms.

- 1) The teacher told them to put their completed homework in the box. Ryan paused. He hadn't finished his!
- 2) Maisie found the test quite tricky. A lot of the questions were strange and the calculations were very difficult.
- 3) An immense tree stood in front of them, casting a vast shadow over the nearby bushes.
- 4) Callie sighed happily. She was pleased with what she'd bought. She had never purchased a doll before!
- 5) Corinne asked for some help, so her teacher came over to assist her.

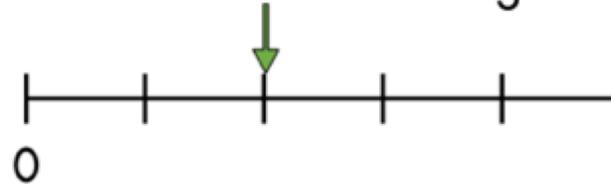

Flashback 4

Year 6 | Week 8 | Day 3

XVI

1) What is $\frac{1}{4} + \frac{3}{4}$?

2) Is the arrow pointing to $\frac{2}{3}$?

3) Divide 2,250 by 25

4) Name a 3D shape that has 2 circular faces.
