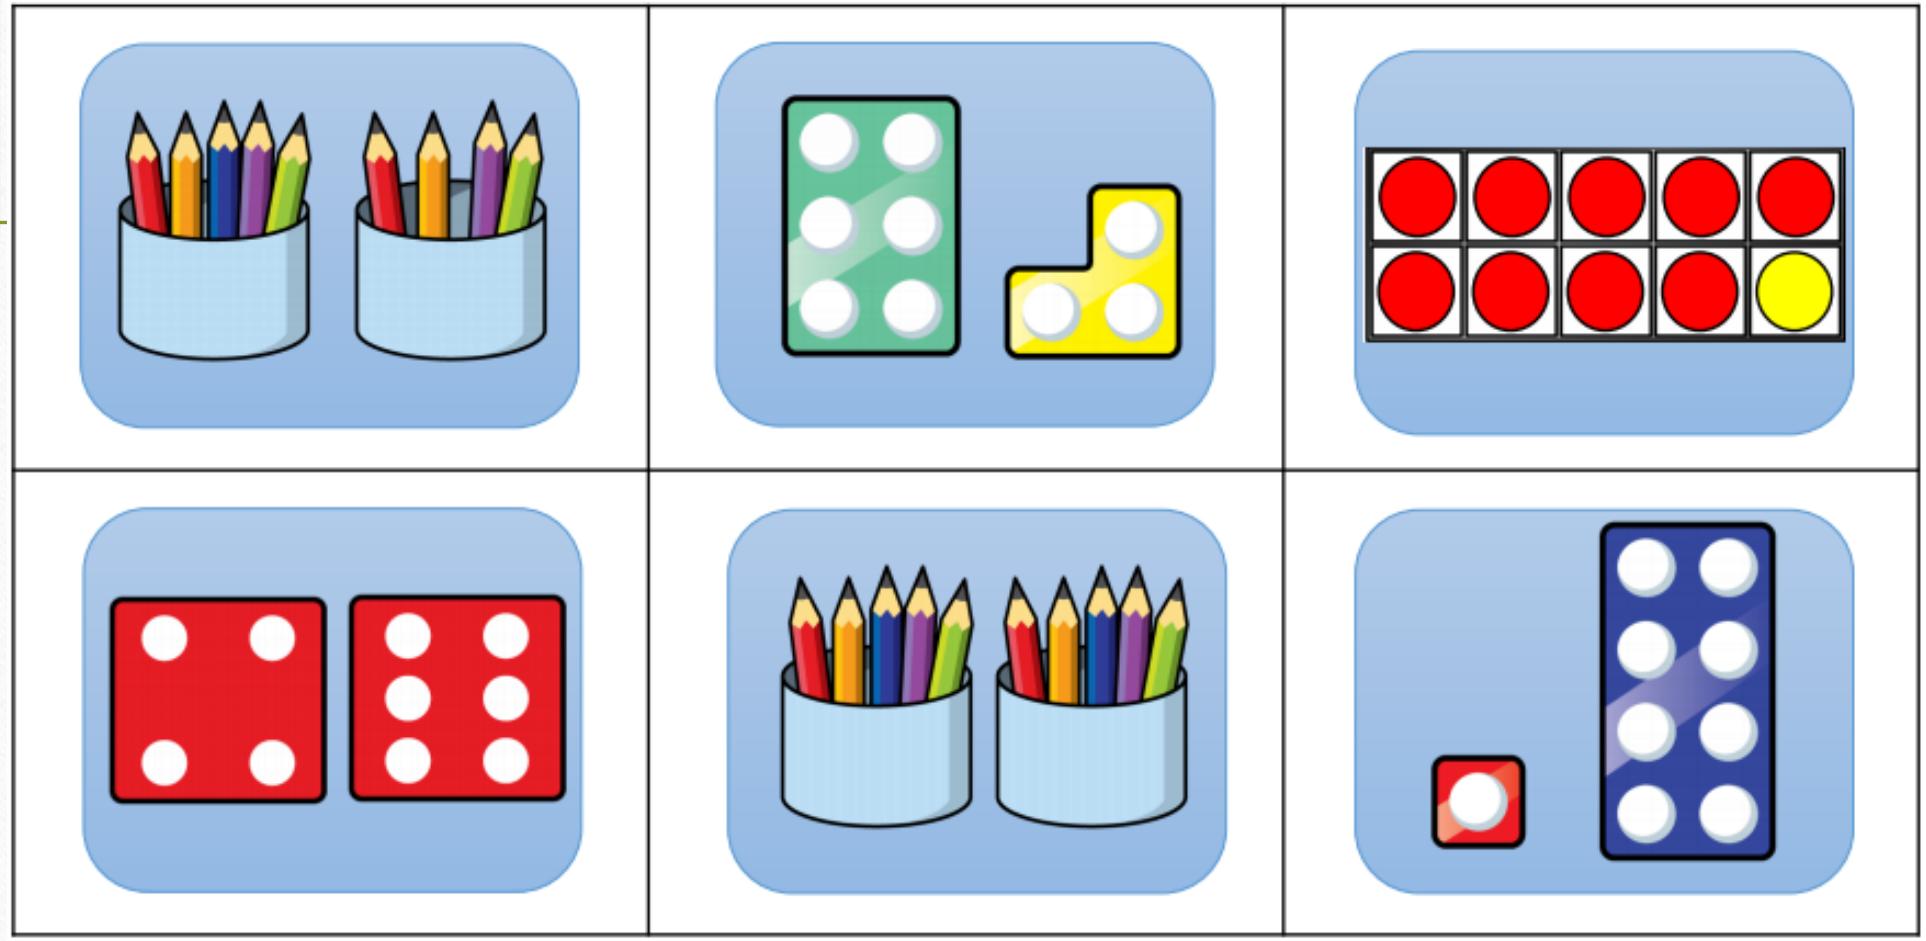
Maths: representing and sorting 9 and 10

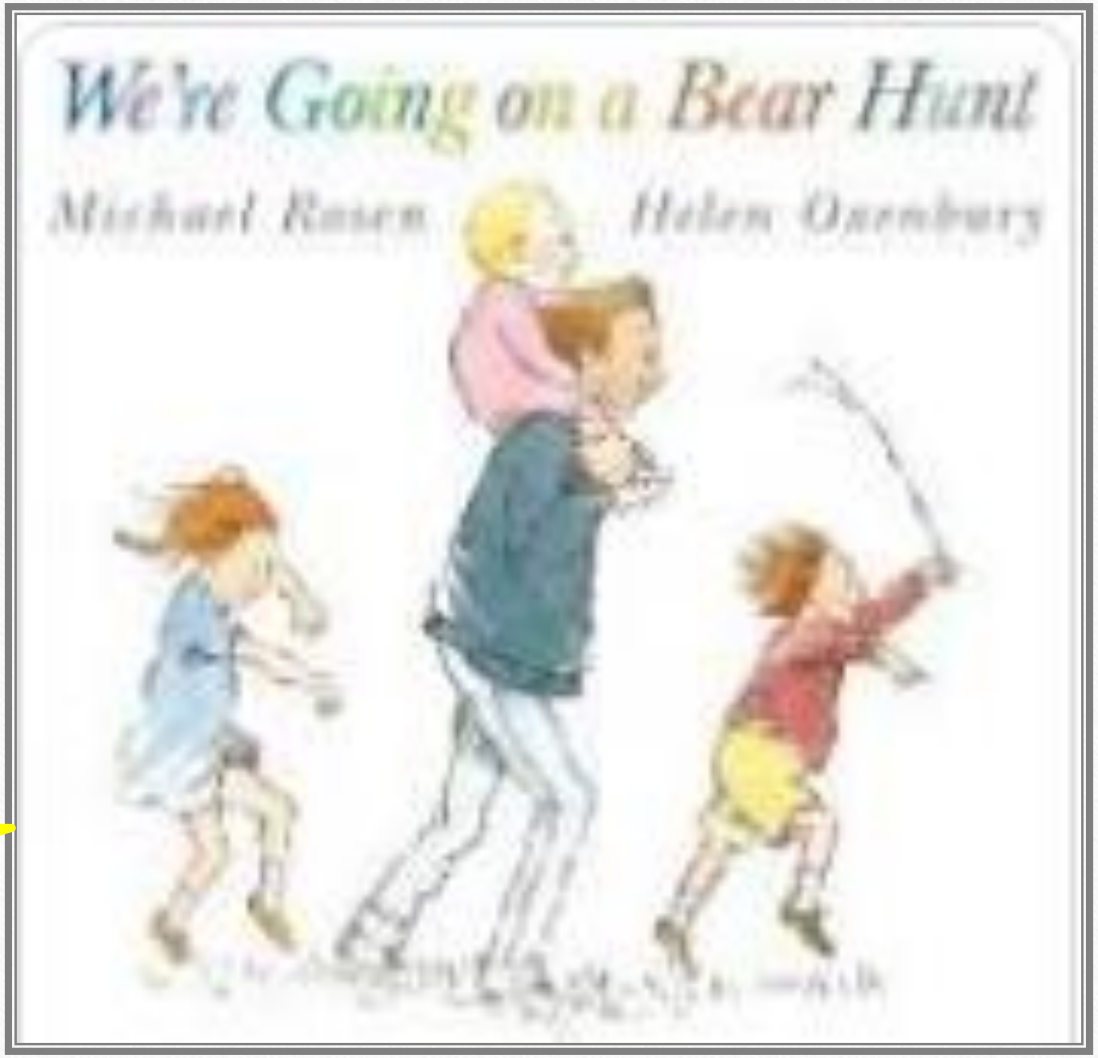
- We explored different ways of making 9 and 10!

Have a look at each card. Does it represent 9 or 10?
Sort the cards into two groups.



Now make your own cards to represent 9 and 10. Have a go at sorting these cards too.

Literacy

- Listen to the story again.
- Practise the actions along with the words.
- Talk about the different places in the story that the family visit.


Please encourage your child to practise the story at least once before our afternoon live lesson.
